This document is provided as general guidelines for providers. Following these guidelines does not guarantee coverage or payment but does provide a basis upon which to support medical necessity for VENDAJE®. The service and the product must be reasonable and necessary for the care of the patient to support reimbursement. Providers should report the procedure and related codes that most accurately describe the patients' medical condition, procedures performed, and the products used.

The information contained herein is not intended as coding advice. The information contained in this document is provided for informational purposes only and represents no statement, promise or guarantee by BioStem Technologies concerning levels of reimbursement, payment, eligibility, charges or that these policies and codes will be appropriate for specific services or products provided or that reimbursement will be made. It is always the providers' responsibility to determine and submit appropriate codes, charges, modifiers and bills for the services that were rendered. BioStem Technologies recommends that you consult your local CMS MAC or other applicable payor organization with regard to specific reimbursement policies, coverage, documentation and payment.
